## *January School Visits*

---

31 January 2018

LMP had a successful visit at three different schools during January. The visits were a personal initiative by LMP mentors and it was organised to target grade 12 learners.

The schools visited were Peter Nchabeleng, Khaiso High and Makgofe High School. The learners were encouraged to work hard, given practical tips on how to excel in matric, informed about LMP amongst other things. The visits were a success and learners engaged in a question and answer session with our mentors.

LMP is thankful of the opportunity to present at those schools and will be mentoring learners from those schools.
